

VIDEO COMPUTER SYSTEM

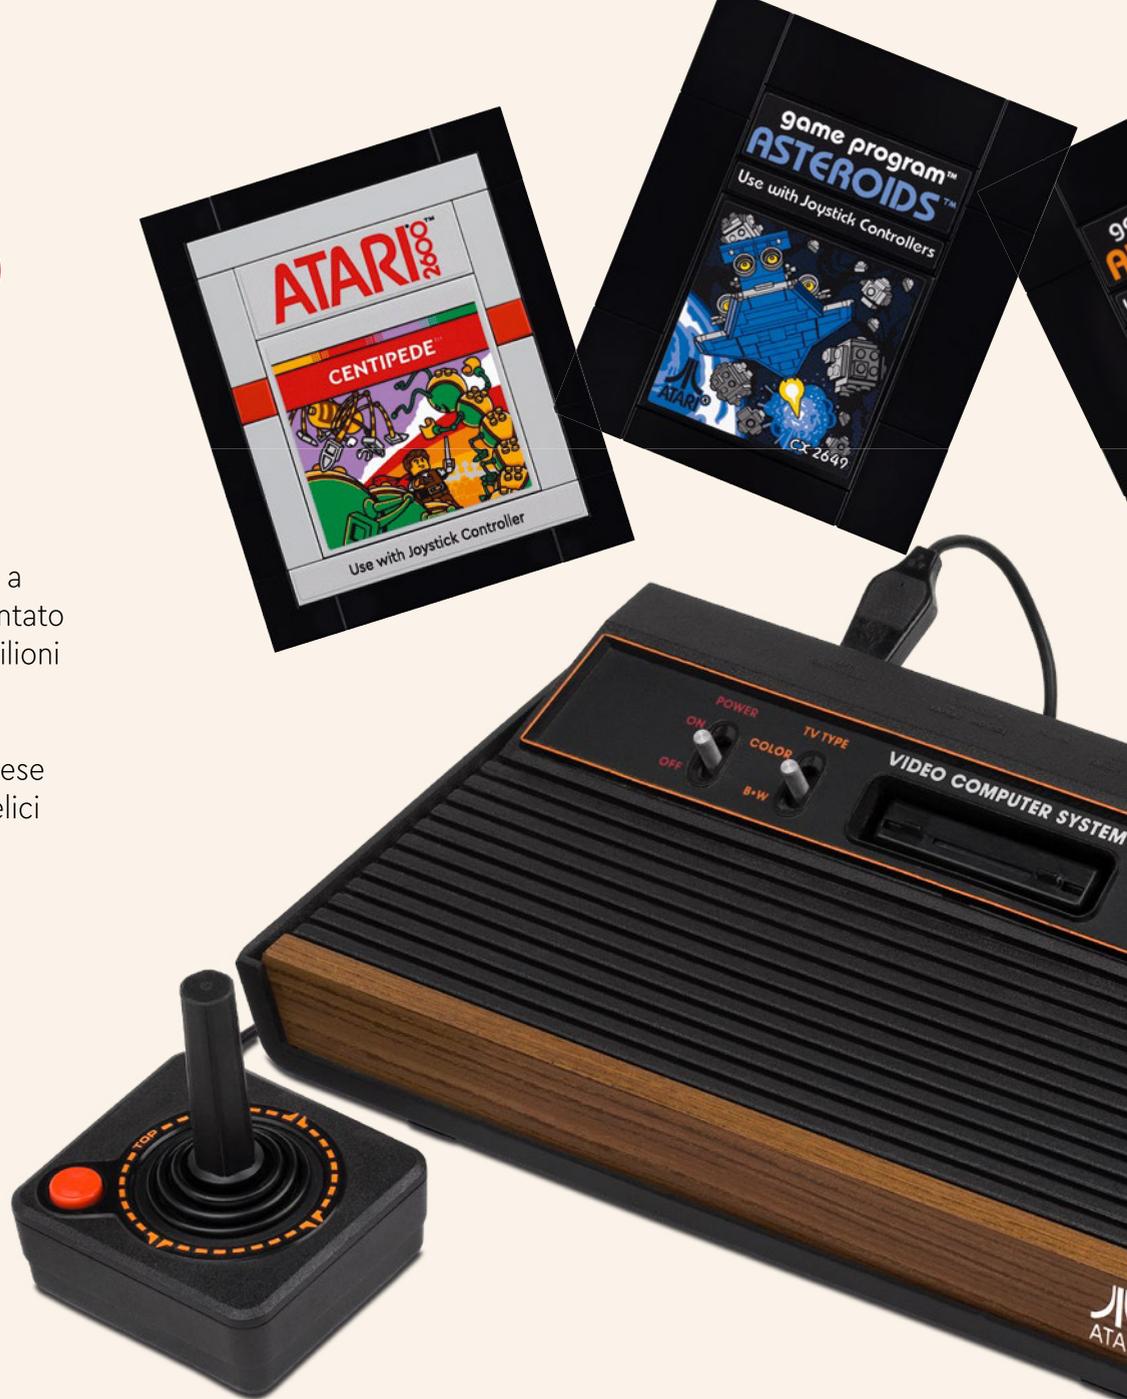

HAI COSTRUITO IL TUO ATARI® OGGI?

Presentato nel 1977, l'ATARI® Video Computer System portò a casa le emozioni e i brividi della sala giochi e sarebbe diventato uno dei sistemi di gioco più popolari della storia, con 30 milioni di unità vendute. Questa versione LEGO® dell'ATARI® Video Computer System è la famosa console CX-2600A del 1980, con quattro interruttori. È ricco di autentici dettagli e sorprese nascoste che ti riporteranno indietro nel tempo, ai giorni felici del gaming classico. Buon divertimento.

L'ICONA DEL GAMING

Per quanto incredibile possa sembrare, la console CX-2600A a quattro interruttori, la versione più popolare dell'ATARI® Video Computer System, celebra il suo 42° anniversario nel 2022. A suo tempo, stabilì lo standard per il gaming su console e rimane il punto di riferimento per tutto il design di console retrò di ATARI® oggi.

HAVE YOU PLAYED ATARI TODAY ?

ATARI 50

50 ANNI DI DIVERTIMENTO

Fondato nel 1972, ATARI® rimane uno dei nomi più famosi nel mondo del gaming e, dopo più di mezzo secolo, il marchio continua ad essere apprezzato dai fan e dagli appassionati che cercano le emozioni dei giochi vintage. Spesso citato in programmi TV e film e una delle icone della cultura pop, ATARI® è diventato anche un autentico punto di riferimento culturale che va ben oltre le sue origini di gioco per computer.

← Il sistema a cartuccia consentiva ai giocatori di cimentarsi con tanti giochi diversi

ATARI
THERE'S NO COMPARING IT WITH ANY OTHER VIDEO GAME.

Only ATARI makes the games the world wants most. Games that are innovative. Intense. Incredibly involving. And totally original.

The most games, the best games are only from ATARI. Atari makes more video game cartridges than anyone else.

Today ATARI Missile Command and Asteroids are the fastest selling home video games in the country.

PIÙ GIOCHI. PIÙ DIVER- TIMENTO.

A differenza dei sistemi di gioco precedenti che offrivano un solo gioco integrato, ATARI® utilizzava un sistema di cartucce che consentiva una selezione praticamente illimitata di giochi. Un totale di 527 giochi sarebbero stati pubblicati per l'ATARI® Video Computer System e successi come *Asteroids*, *Ms. Pac-Man* e *Pitfall!* lo resero il sistema di gioco indispensabile alla fine degli anni '70 e all'inizio degli anni '80.

1980 **ADVENTURE**

In un gioco che avrebbe ispirato un'intera generazione di avventure, dopo che un malvagio mago ha rubato il calice magico del castello, il giocatore deve superare terribili pericoli con il suo coraggioso cavaliere per riportarlo nel maniero!

1981 **ASTEROIDS**

L'obiettivo di questo avvincente gioco è ottenere il punteggio più alto abbattendo ondate di asteroidi, satelliti e UFO. Una volta colpiti, gli asteroidi si rompono in pezzi più piccoli e veloci che volano via in tutte le direzioni in modo imprevedibile!

1982 **CENTIPEDE**

Usa la bacchetta in fondo allo schermo per distruggere quanti più insetti puoi. La tua nemesis è un millepiedi lungo e serpeggiante che invade ogni livello. Per procedere nel gioco, devi sterminare ogni segmento del millepiedi in ogni livello!

COSTRUIRE UN'ICONA

Questo modello LEGO® di 2.532 pezzi è una rappresentazione 1:1 del famoso ATARI® Video Computer System a quattro interruttori (modello CX-2600A). Oltre a una replica del joystick che può essere collegato sulla parte posteriore della console, il modello ha anche quattro interruttori funzionanti sulla parte anteriore. Sono incluse tre

cartucce dei famosi giochi VCS e ogni gioco è rappresentato da una vignetta LEGO costruibile che visualizza l'esperienza di gioco offerta. Tutti i giochi possono essere conservati in un fantastico porta-cartucce in stile anni '80 quando non sono in uso!

L'ATARI® VIDEO COMPUTER SYSTEM

Esistevano diverse versioni dell'ATARI® Video Computer System lanciato tra il 1977 e il 1992, per lo più differenziate per peso, numero di interruttori o finitura della console stessa. La tecnologia, sebbene impressionante ai suoi

tempi, sembra inconcepibile oggi, con una velocità del processore limitata di 1,19 MHz, una capacità totale di 128 byte di RAM integrata e una capacità della cartuccia di gioco di soli 4 kilobyte!

IL DESIGN TEAM

Sono un vero fan dei classici giochi per console e orgoglioso proprietario di un ATARI® Video Computer System originale e quindi lavorare a questo progetto in vista del 50° anniversario di ATARI è un stato sogno diventato realtà! Una volta che abbiamo deciso la scala generale e le caratteristiche del modello, si è trattato di realizzare correttamente i piccoli dettagli: progettare interruttori che potessero essere spostati su e giù, costruire un joystick che

assomigliasse all'originale e creare una versione in mattoncini della classica venatura del legno per il frontale della console. Ovviamente, non siamo riusciti a ricreare i giochi stessi, ma abbiamo deciso di includere tre vignette costruibili per portare i fan più vicini all'esperienza di gaming con questi giochi classici.

LEGO® Designer, Chris McVeigh

La scena a comparsa è ricca di dettagli che risulteranno immediatamente riconoscibili a chiunque sia cresciuto giocando ai videogiochi negli anni '80

Nel 1982, ATARI® ribattezzò il VCS "ATARI® 2600 Video Computer System" (usando un numero più alto rispetto al modello originale) mentre il suo nuovo e più potente fratello fu introdotto con il nome di ATARI® 5200 Video Computer System.
